

FinCore Platform - UI Manual Test Plan

Version: 3.0.0 - UI Testing Only

Date: May 18, 2026

Status: Ready for NPE Testing

Test Environment: NPE (Non-Production Environment)

Platform: FinCore User Management & Organization Onboarding System

Testing Scope: Frontend UI Testing (No API Testing)

IMPORTANT: UI TESTING ONLY

This test plan focuses exclusively on testing the web application user interface (UI).

What You WILL Test (UI):

- Login page functionality and form validation
- Dashboard and navigation menu
- Button clicks and link navigation
- Form inputs, dropdowns, date pickers
- File upload and download via browser
- Success and error messages displayed on screen
- Tables, lists, and data display
- Page loading and UI responsiveness
- Role-based UI visibility (what users can/cannot see)
- Visual elements (colors, icons, status badges)

What You Will NOT Test (API/Backend):

- API endpoints or REST calls
- Database queries or data validation at DB level
- Backend logs or server console
- Direct file storage verification
- Backend health checks or monitoring

Testing Approach:

All testing is performed through the **web browser only**. You interact with the application as a real user would:

1. Open browser and navigate to UI URL
2. Click buttons, fill forms, upload files
3. Observe what appears on screen
4. Verify expected results are displayed
5. Capture screenshots of any issues

Tools Needed: Web browser (Chrome/Edge/Firefox), Excel tracker, Screenshot tool

1. Introduction for QA Team

Welcome to FinCore UI Testing!

This document provides a comprehensive **UI-focused manual testing plan** for the FinCore platform - a financial services application that manages users, organizations, and KYC (Know Your Customer) verification workflows.

What is FinCore?

FinCore is a **cloud-based financial compliance platform** with a modern web interface built using React and Material-UI. This test plan focuses exclusively on testing the **user interface** through the web browser.

Technology Stack (UI):

- **Frontend UI:** React TypeScript application with Material-UI components
- **Deployment:** Google Cloud Platform
- **Browser Support:** Chrome, Edge, Firefox, Safari

Your Role as QA

You will manually test **all UI features** in the NPE environment using only the web browser to ensure:

- ☒ UI elements display correctly and are responsive
- ☒ User workflows are smooth and intuitive
- ☒ Form validation works correctly with helpful error messages
- ☒ Buttons, links, and navigation function properly
- ☒ Role-based UI visibility works correctly
- ☒ Documents upload and download through UI successfully
- ☒ Data displays accurately in tables and forms
- ☒ Success and error messages are clear and timely

Testing Approach: All testing will be performed through the web browser interface only. No API testing, database queries, or backend console access required.

How This Testing Works

1. **Study** the features overview (Section 2)
2. **Setup** your test environment (Section 3)
3. **Execute** test cases module by module (Sections 6-12)
4. **Record** results in the Excel tracker (provided separately)
5. **Report** bugs and issues following Section 13
6. **Feedback** to AI for automated bug fixes

Testing Timeline

- **Estimated Duration:** 5-7 business days (full regression)
- **Daily Testing:** 4-6 hours per day
- **Test Cycles:** 2 cycles (initial + regression after fixes)

2. Features Overview

This section explains all completed features in the FinCore platform. Read this carefully to understand what you're testing.

2.1 User Management & Authentication ☒

What It Does

Manages user accounts with secure phone-based authentication and role-based access control.

Key Features

- **Phone-Based Login:** Users login with mobile number + OTP (One-Time Password)
- **4 Business Roles:**
 - **SYSTEM_ADMINISTRATOR:** Full system access (admin features)
 - **COMPLIANCE_OFFICER:** Compliance operations
 - **OPERATIONAL_USER:** Operational tasks
 - **BUSINESS_USER:** Limited access (can only see their own data)
- **JWT Authentication:** Secure token-based authentication (24-hour expiration)
- **User CRUD:** Create, Read, Update, Delete users
- **Address Management:** 3 address types (Residential, Postal, Business)
- **Data Filtering:** Business Users only see their own organizations/data

User Workflow

- ☒ Login page display and functionality
- ☒ Phone number input validation and formatting
- ☒ OTP input field behavior
- ☒ Login with different roles via UI
- ☒ Error message display for incorrect OTP
- ☒ Session timeout behavior (redirect to login after 24 hours)
- ☒ Role-based UI visibility (Business Users don't see admin buttons)
- ☒ User dashboard and navigation menu display
- ☒ User list page with search and filters
- ☒ User creation/edit forms with address management
- ☒ Form field validation and error messages
- Login with different roles
- OTP validation (correct/incorrect codes)
- Token expiration after 24 hours
- Role-based UI visibility (Business Users don't see admin buttons)
- Address creation and management

2.2 Organization Management ☒

What It Does

Allows users to create and manage their business organizations with detailed information.

Key Features

- ****6 Organization Types****:
 1. `LIMITED\_COMPANY` (LTD)
 2. `PUBLIC\_LIMITED\_COMPANY` (PLC)
 3. `LIMITED\_LIABILITY\_PARTNERSHIP` (LLP)
 4. `SOLE\_TRADER`
 5. `CHARITY`
 6. `PARTNERSHIP`
- ****Multi-Step Creation Wizard****: 7 tabs to collect comprehensive information
- ****One Organization Per User Rule****: Business Users can create only ONE organization
- ****Organization Status Lifecycle****: PENDING → UNDER_REVIEW → ACTIVE
- ****Search & Filtering****: Find organizations by name, type, status, date range
- ****Address Management****: Registered address, business address, correspondence address

7-Step Creation Wizard

1. ****Basic Information****: Legal name, trading name, organization type
2. ****Registration Details****: Registration number, incorporation date, VAT number
3. ****Business Address****: Registered, business, and correspondence addresses
4. ****Contact Information****: Email, phone, website, primary contact person
5. ****Business Details****: Industry, number of employees, annual revenue
6. ****Financial Information****: Bank details, accounting reference date
7. ****KYC Documents Upload****: Upload required compliance documents (NEW!)

Organization Status Flow

PENDING (after creation)

↓ (User clicks "Submit for Review")

UNDER_REVIEW (waiting for admin)

↓ (Admin approves)

ACTIVE (organization approved)

OR

↓ UI Testing Focus

- ☒ Organization list page display and layout
- ☒ "Create Organization" button visibility based on role
- ☒ 7-step wizard UI and tab navigation
- ☒ Form field display and input controls
- ☒ Dropdown population with all 6 organization types
- ☒ Required field validation messages
- ☒ Tab completion indicators (checkmarks)
- ☒ "Same as" checkbox functionality for addresses
- ☒ Save button behavior and success messages
- ☒ Organization appearing in list after creation
- ☒ Status badges display (color-coded)
- ☒ Search box functionality
- ☒ Filter dropdowns (type, status, date range)
- ☒ "Submit for Review" button visibility and behavior
- ☒ One-organization-per-user UI enforcement
- Create organizations of all 6 types
- Validate one-organization-per-user rule
- Complete all 7 wizard steps
- Required field validation
- Submit for review functionality
- Search and filter capabilities

2.3 KYC Document Upload & Verification ☒

What It Does

Manages the upload, storage, and verification of KYC (Know Your Customer) compliance documents.

Key Features

- **9 Document Types Supported:**
 1. PASSPORT: **Passport copy**
 2. DRIVING_LICENSE: **Driver's license**
 3. NATIONAL_ID: **National ID card**
 4. PROOF_OF_ADDRESS: **Utility bill, bank statement**
 5. CERTIFICATE_OF_INCORPORATION: **Company registration**
 6. MEMORANDUM_OF_ASSOCIATION: **Company bylaws**
 7. ARTICLES_OF_ASSOCIATION: **Company articles**
 8. DIRECTORS_REGISTER: **List of directors**
 9. SHAREHOLDERS_REGISTER: **List of shareholders**
- **Inline Upload:** Documents uploaded during organization creation (Step 7)
- ****UI Testing Focus**
- ☒ **KYC Documents** tab display in organization wizard
- ☒ **Document type** dropdown population (all 9 types)
- ☒ **Drag & drop** zone visual feedback
- ☒ **File browse** button functionality
- ☒ **File preview** display (name, size, type)
- ☒ **Upload button** and progress indicator
- ☒ **File validation** error messages (format, size)
- ☒ **Documents table** display with columns
- ☒ **Status badges** for documents (color-coded)
- ☒ **Download/View** buttons functionality
- ☒ **Delete button** with confirmation dialog
- ☒ **Multiple document** handling in UI
- ☒ **Required documents checklist** display NG → UNDER_REVIEW → VERIFIED/REJECTED

Document Workflow

1. **User uploads** document → 2. File validated → 3. Uploaded to GCS →
4. Status: PENDING → 5. **User submits** org for review → 6. Status: UNDER_REVIEW →
7. Admin reviews → 8. Status: VERIFIED **or** REJECTED

Testing Focus

- Upload all 9 document types
- Drag and drop functionality
- File validation (wrong format, oversized files)
- Document preview/download
- Status transitions
- Multiple documents per organization

2.4 Admin Approval Workflow ☒

What It Does

Enables admin users to review and approve/reject organizations submitted by business users.

Key Features

- **Role-Based Buttons:** Only SYSTEM_ADMINISTRATOR role sees approve/reject buttons
- **Two Actions:**
 1. **Approve Organization:**
 - Changes organization status to ACTIVE
 - All documents marked as VERIFIED
 - Organization can start operations
 2. **Reject Organization:**
 - Opens rejection dialog
 - Admin selects specific documents to reject
 - Provides detailed feedback for each rejected document
 - Non-selected documents automatically VERIFIED
 - Organization status → REQUIRES_RESUBMISSION

Approve Workflow

Admin sees org with status UNDER_REVIEW → Clicks green checkmark button → ConfUI Testing Focus

- ☒ Admin-only button visibility (Approve/Reject)
- ☒ Green checkmark (Approve) button display
- ☒ Red X (Reject) button display
- ☒ Approve confirmation dialog
- ☒ Reject dialog opening and layout
- ☒ Document list with checkboxes in reject dialog
- ☒ Feedback text areas per document
- ☒ Submit/Cancel buttons in dialogs
- ☒ Success message display after approval/rejection
- ☒ Status badge updates in UI after action
- ☒ Organization list refresh to show new status on dialog opens →

Admin selects documents to reject → Enters rejection reasons → Submits → Org status: REQUIRES_RESUBMISSION, Selected docs: REJECTED, Others: VERIFIED

Document-Level Rejection Features

- **Selective Rejection:** Admin can reject specific documents (e.g., only passport and proof of address)
- **Per-Document Feedback:** Each rejected document gets a specific reason
- **Automatic Verification:** Non-rejected documents are automatically verified
- **Summary Generation:** System generates "X of Y documents rejected" message

Testing Focus

- Admin login and button visibility
- Approve entire organization
- Reject specific documents with feedback
- Verify status transitions
- Check feedback is saved correctly

2.5 Rejection & Resubmission Workflow ☒

What It Does

Allows organization owners to see rejection feedback and resubmit corrected documents.

Key Features

- **Rejection Alert Display:**
 - Red alert banner on Organizations page
 - Shows organization name and rejection summary
 - "View Details" link to see full feedback
 - **Document-Level Feedback:**
 - Each rejected document shows admin's specific reason
 - Color-coded status badges (red for rejected, green for verified)
 - Clear action items for user
 - **Resubmission Process:**
 - UI Testing Focus
- ☒ Red rejection alert banner display on Organizations page
 - ☒ Alert message content and formatting
 - ☒ "View Details" link functionality
 - ☒ Document-level feedback display in UI
 - ☒ Color-coded status badges (red for rejected, green for verified)
 - ☒ Admin Feedback column in documents table
 - ☒ Tooltip/expandable text for long feedback
 - ☒ Upload new document UI after rejection
 - ☒ "Submit for Review" button reappearance
 - ☒ Alert dismissal after resubmission
 - ☒ Status badge color change after resubmission

User Experience Flow

1. User logs in → Sees red rejection alert
2. Clicks "View Details" → Sees organization page
3. Sees which documents rejected + reasons
4. Uploads corrected documents
5. Clicks "Submit for Review"
6. Status: UNDER_REVIEW (back to admin)

Rejection Feedback Display

- **Organizations Page:** Summary alert with org name
- **Organization Details Page:** Full list of rejected documents with reasons
- **KYC Tab:** Document status badges (REJECTED in red)
- **Clear Messaging:** Explains what needs to be fixed

Testing Focus

- View rejection alerts
- Read document-specific feedback

- Upload replacement documents
- Resubmit for review
- Verify status changes correctly

2.6 Questionnaire Management

What It Does

Enables admins to create dynamic questionnaires for compliance and onboarding purposes.

Key Features

- **UI Testing Focus**
 - ☒ Questionnaires page display and layout
 - ☒ "Create Question" button visibility (admin only)
 - ☒ Question creation form display
 - ☒ Category dropdown population (6 categories)
 - ☒ Question type dropdown options
 - ☒ Display order input field
 - ☒ Status dropdown (ACTIVE, INACTIVE, ARCHIVED)
 - ☒ Required checkbox behavior
 - ☒ Save button and success message
 - ☒ Questions list/table display
 - ☒ Move Up/Down buttons
 - ☒ Archive button and confirmation
 - ☒ Status badges for question details
4. COMPLIANCE: Regulatory compliance
 5. RISK_ASSESSMENT: Risk evaluation
 6. OTHER: Miscellaneous questions
- **Question Status:** ACTIVE, INACTIVE, ARCHIVED
 - **Display Order:** Reorder questions for logical flow
 - **Question Types:** Text, multiple choice, yes/no, date
 - **Archive/Restore:** Soft delete with restore capability

Questionnaire Workflow

Admin creates question → Sets category & **order** → **Saves** → Question: ACTIVE →
Users can see question → Optionally: Archive question → Question: ARCHIVED

UI Testing Focus

- ☒ Questionnaire/Answers page display for users
- ☒ Active questions list display
- ☒ Answer input fields (text, dropdown, date picker)
- ☒ Required field indicators (asterisks)
- ☒ Submit button behavior
- ☒ Success message after submission
- ☒ Edit button for existing answers
- ☒ Update functionality and confirmation
- ☒ Bulk submission UI (Submit All button)
- ☒ Completion rate display (progress bar or percentage)
- ☒ Required validation error messages

2.7 Customer Answers

What It Does

Allows users to submit answers to questionnaire questions for compliance purposes.

Key Features

- **Submit Answers:** Users provide answers to active questions
- **Update Answers:** Users can modify previously submitted answers
- **Bulk Submission:** Submit multiple answers at once
- **Answer Tracking:** Track which questions are answered
- **Completion Rate:** System calculates % of questions answered
- **Required Validation:** Enforces required questions

Answer Workflow

User **sees** questionnaire → Fills **in** answers → Submits → Answers saved →
Can update later → Completion rate updated

Testing Focus

- Submit answers to questions
- Update existing answers
- Bulk submission
- Required question validation
- Completion rate calculation

3. Test Environment Setup

3.1 Environment URLs

NPE Environment (UI Testing)

- **Frontend UI:** <https://fincore-npe-ui-994490239798.europe-west2.run.app>
- **Login Page:** Access the frontend URL to reach the login page

Note: This test plan focuses on UI testing only. You will interact exclusively with the web application through your browser. No API endpoints or backend testing required.

Verify UI Access

Before testing, verify you can access the application:

1. Open the frontend UI URL in your browser
2. Should see the FinCore login page with:
 - FinCore logo/branding
 - Phone number input field
 - "Send OTP" button
 - Clean, professional UI layout
3. If login page doesn't load:
 - Check internet connection
 - Try different browser
 - Clear browser cache
 - Contact development team

3.2 Test Accounts

Admin Account

```
Phone Number: +44-7700-900001
OTP: 123456 (development mode - fixed OTP)
Role: SYSTEM_ADMINISTRATOR
Name: Admin User
Email: admin@fincore.com
```

What This Account Can Do:

- Create/edit/delete users
- Create/edit organizations
- View all organizations (not just own)
- Approve/reject organizations
- Create questionnaires
- Full system access

Business User Account 1

```
Phone Number: +44-7700-900002
OTP: 123456
Role: BUSINESS_USER
Name: Business Owner One
Email: business1@testcompany.com
```

What This Account Can Do:

- Create ONE organization
- Upload KYC documents
- Submit organization for review
- View rejection feedback
- Resubmit after rejection
- Answer questionnaires
- View own data only

Business User Account 2

```
Phone Number: +44-7700-900003
OTP: 123456
Role: BUSINESS_USER
Name: Business Owner Two
Email: business2@anothercompany.com
```

What This Account Can Do:

- Same as Business User 1
- Used to test data isolation (cannot see User 1's data)

Compliance Officer Account

Phone Number: +44-7700-900004
OTP: 123456
Role: COMPLIANCE_OFFICER
Name: Compliance Manager
Email: compliance@fincore.com

What This Account Can Do:

- View all organizations
- Perform compliance checks
- Access reports
- Cannot approve organizations (admin only)

3.3 Test Files Preparation

Create a folder on your computer called `FinCore_TestFiles` and prepare these files:

Valid Test Documents

1. **passport_valid.pdf** (2MB)
 - Valid passport document for testing
 - PDF format
 - Size: ~2MB
2. **driving_license_valid.pdf** (1.5MB)
 - Valid driving license document
 - PDF format
 - Size: ~1.5MB
3. **certificate_incorporation.pdf** (1MB)
 - Certificate of Incorporation
 - PDF format
 - Size: ~1MB
4. **proof_address_utility.pdf** (800KB)
 - Utility bill as proof of address
 - PDF format
 - Size: ~800KB
5. **directors_register.pdf** (500KB)
 - List of company directors
 - PDF format
 - Size: ~500KB
6. **valid_image_passport.jpg** (1MB)
 - Passport as JPG image
 - JPG format
 - Size: ~1MB
7. **valid_image_license.png** (1.2MB)
 - License as PNG image
 - PNG format
 - Size: ~1.2MB

Invalid Test Documents (for negative testing)

8. **invalid_format.txt** (100KB)
 - Text file (not allowed format)
 - TXT format
 - Expected: Upload should fail
9. **oversized_document.pdf** (15MB)
 - PDF larger than 10MB limit
 - PDF format
 - Size: 15MB
 - Expected: Upload should fail
10. **corrupted_file.pdf** (500KB)
 - Corrupted PDF file
 - Cannot be opened
 - Expected: Upload may succeed but preview fails

Note: If you don't have real documents, you can create dummy PDF files using any PDF creator or online tools. Content doesn't matter for testing purposes.

3.4 Browser Setup

Recommended Browser

- **Primary:** Google Chrome (latest version)

- **Secondary:** Microsoft Edge (for cross-browser testing)

Browser Extensions to Install

- **JSON Formatter:** For viewing API responses
- **React Developer Tools:** For inspecting React components (optional)

Browser Settings

- ☒ Enable JavaScript
- ☒ Allow cookies (required for session management)
- ☒ Clear cache before each test session
- ☒ Disable ad blockers (may interfere with file uploads)
- ☒ Set zoom to 100% for consistent UI testing
- ☒ Use Incognito/Private mode for clean testing sessions

Screen Resolution

- **Recommended:** 1920x1080 (Full HD) for desktop testing
- ****Test Responsiv** (UI Testing)

1. **Web Browser:** Chrome, Edge, or Firefox (latest version) ☒
2. **Excel/Google Sheets:** For test execution tracker ☒
3. **Screenshot Tool:** Windows Snipping Tool or Snagit ☒
4. **Notepad:** For copying error messages ☒

Optional Tools

1. **Video Recording:** OBS Studio or Windows Game Bar (Win+G) for recording bugs
2. **Color Picker:** To verify UI colors match design (optional)
3. **Browser Dev Tools:** F12 for inspecting UI elements (advanced users)
 - **Console tab:** View JavaScript errors
 - **Network tab:** Check if requests are failing
 - **Elements tab:** Inspect UI components

Note: No API testing tools (Postman, cURL) required for this UI-focused test plan.ng bugs

4. **Stopwatch/Timer:** For performance testing (page load times)

Optional Tools

1. **Postman:** For API testing (advanced users)
2. **Browser Dev Tools:** F12 for network inspection
3. **Video Recording:** OBS Studio for recording bugs

4. Test Data Repository

4.1 Organization Test Data

Scenario 1: Limited Company (Happy Path)

```
{
  "legalName": "Tech Innovations Limited",
  "tradingName": "TechInn",
  "organisationType": "LIMITED_COMPANY",
  "registrationNumber": "12345678",
  "taxId": "GB123456789",
  "incorporationDate": "2020-01-15",
  "businessAddress": {
    "addressLine1": "123 Tech Street",
    "addressLine2": "Innovation District",
    "city": "London",
    "county": "Greater London",
    "postcode": "SW1A 1AA",
    "country": "United Kingdom"
  },
  "primaryContact": {
    "firstName": "John",
    "lastName": "Smith",
    "email": "john.smith@techinnovations.co.uk",
    "phone": "+44-7700-900100",
    "position": "Managing Director"
  },
  "industry": "TECHNOLOGY",
  "companySize": "SMALL",
  "annualRevenue": "£500,000",
  "numberOfEmployees": 25
}
```

Organization Data - Scenario 2 (Rejection Path)

```
{
  "legalName": "Global Finance Solutions PLC",
  "tradingName": "GFS",
  "organisationType": "PUBLIC_LIMITED_COMPANY",
  "registrationNumber": "87654321",
  "taxId": "GB987654321",
  "incorporationDate": "2018-06-10",
  "businessAddress": {
    "addressLine1": "456 Finance Avenue",
    "addressLine2": "Business Park",
    "city": "Manchester",
    "county": "Greater Manchester",
    "postcode": "M1 1AA",
    "country": "United Kingdom"
  },
  "primaryContact": {
    "firstName": "Sarah",
    "lastName": "Johnson",
    "email": "sarah.johnson@gfs.co.uk",
    "phone": "+44-7700-900200",
    "position": "CEO"
  },
  "industry": "FINANCIAL_SERVICES",
  "companySize": "MEDIUM",
  "annualRevenue": "£2,500,000",
  "numberOfEmployees": 75
}
```

KYC Document Types

- 1. CERTIFICATE_OF_INCORPORATION (Required)
- 2. PROOF_OF_ADDRESS (Required)
- 3. DIRECTORS_REGISTER (Required)
- 4. MEMORANDUM_OF_ASSOCIATION (Optional)
- 5. ARTICLES_OF_ASSOCIATION (Optional)
- 6. SHAREHOLDERS_REGISTER (Optional)
- 7. BANK_REFERENCE_LETTER (Optional)
- 8. AUDITED_FINANCIAL_STATEMENTS (Optional)

Rejection Feedback Examples

Document: Certificate of Incorporation
Reason: "The document is blurry and unreadable. Please upload a clearer version showing company name and registration number."

Document: Proof of Address
Reason: "This document is more than 3 months old. Please provide a recent utility bill or bank statement dated within the last 90 days."

Document: Directors Register
Reason: "The directors' list is incomplete. Please include full names, addresses, and dates of appointment for all directors."

Test Scenarios

Scenario 1: Happy Path - Complete Approval

Objective: Test successful organization creation, KYC upload, submission, and approval

Steps:

- 1. Business User logs in
- 2. Creates a new organization (Tech Innovations Ltd)
- 3. Uploads all 3 required KYC documents
- 4. Submits for review
- 5. Admin logs in
- 6. Reviews and approves organization
- 7. Business User verifies organization is ACTIVE

Expected Result: Organization approved, all documents verified, status = ACTIVE

Scenario 2: Rejection and Resubmission

Objective: Test rejection workflow with detailed feedback and successful resubmission

Steps:

- 1. Business User logs in
- 2. Creates a new organization (Global Finance Solutions PLC)
- 3. Uploads 3 KYC documents (some will be "faulty")
- 4. Submits for review
- 5. Admin logs in
- 6. Rejects 2 out of 3 documents with detailed feedback
- 7. Business User views rejection feedback
- 8. Business User resubmits corrected documents
- 9. Admin approves organization

Expectedcd c:\Development\git\fincore_WebUI
npx playwright test tests/e2e/sumsub-kyc-verification.spec.tscd c:\Development\git\fincore_WebUI
npx playwright test tests/e2e/sumsub-kyc-verification.spec.ts Result: Rejection feedback visible, resubmission successful, final approval granted

Scenario 3: Incomplete Submission Prevention

Objective: Verify users cannot submit without required documents

Steps:

- 1. Business User creates organization
- 2. Uploads only 1 of 3 required documents
- 3. Attempts to submit for review

Expected Result: Submit button disabled or validation error shown

Scenario 4: File Validation

Objective: Test file type and size validation

Steps:

- 1. Business User creates organization
- 2. Attempts to upload .txt file (invalid type)
- 3. Attempts to upload 15MB file (oversized)
- 4. Uploads valid PDF files

Expected Result: Invalid uploads rejected with clear error messages, valid uploads succeed

Test Cases

Test Case 1: Organization Creation

Test ID: TC-ORG-001

Priority: High

Type: Functional

Step	Action	Expected Result
1	Login as Business User	Dashboard displayed
2	Navigate to Organizations	Organizations page loaded
3	Click "Create Organization"	Multi-step form opens (7 tabs)
4	Fill Tab 1: Basic Info	Fields validated, can proceed to Tab 2
5	Fill Tab 2: Registration	Fields validated, can proceed to Tab 3
6	Fill Tab 3: Business Address	Fields validated, can proceed to Tab 4
7	Fill Tab 4: Contact Info	Fields validated, can proceed to Tab 5
8	Fill Tab 5: Business Details	Fields validated, can proceed to Tab 6
9	Fill Tab 6: Financial Info	Fields validated, can proceed to Tab 7
10	View Tab 7: KYC Documents	KYC upload component displayed
11	Save as Draft	Organization saved with status = PENDING

Test Data: Use Organization Data - Scenario 1

Test Case 2: KYC Document Upload

Test ID: TC-KYC-001

Priority: High

Type: Functional

Step	Action	Expected Result
1	Open organization in edit mode	Form loaded with saved data
2	Navigate to Tab 7 (KYC Documents)	Upload interface displayed
3	Select document type "Certificate of Incorporation"	Dropdown populated
4	Drag & drop certificate_of_incorporation.pdf	File selected, preview shown
5	Click "Upload" button	Progress indicator shown, file uploads
6	Verify document in table	Document listed with status PENDING
7	Repeat for "Proof of Address"	Second document uploaded successfully
8	Repeat for "Directors Register"	Third document uploaded successfully
9	Verify required documents checklist	All 3 required documents checked ✓
10	Verify tab completion	Tab 7 marked as complete

Test Data:

- certificate_of_incorporation.pdf
- proof_of_address.pdf
- directors_register.pdf

Test Case 3: Submit for Review

Test ID: TC-SUBMIT-001

Priority: High

Type: Functional

Step	Action	Expected Result
1	Navigate to Organizations page	Organizations list displayed
2	Verify organization status	Status = PENDING
3	Verify "Submit for Review" button visible	Blue send icon button shown
4	Click "Submit for Review"	Confirmation dialog appears
5	Confirm submission	Organization status changes to UNDER_REVIEW
6	Verify all documents status	All document statuses = UNDER_REVIEW
7	Verify "Submit" button hidden	Button no longer visible (already submitted)
8	Verify organization in admin queue	Admin can see in UNDER_REVIEW filter

Precondition: Organization with 3 uploaded KYC documents

Test Case 4: Admin Approval

Test ID: TC-APPROVE-001

Priority: High

Type: Functional

Step	Action	Expected Result
1	Login as Admin	Admin dashboard displayed
2	Navigate to Organizations	All organizations visible
3	Filter by status "UNDER_REVIEW"	Only pending reviews shown
4	Select organization "Tech Innovations Ltd"	Organization details displayed
5	Click organization name/row	Opens organization details
6	Click "View Documents" or navigate to KYC tab	All 3 documents displayed
7	Review each document (download/view)	Documents accessible
8	Navigate back to Organizations list	List displayed
9	Click "Approve" button (green checkmark)	Confirmation dialog appears
10	Confirm approval	Success message shown
11	Verify organization status	Status = ACTIVE
12	Verify documents status	All documents status = VERIFIED
13	Verify reasonDescription cleared	No rejection text present

Precondition: Organization submitted for review with 3 documents

Test Case 5: Admin Rejection with Feedback

Test ID: TC-REJECT-001

Priority: High

Type: Functional

Step	Action	Expected Result
1	Login as Admin	Admin dashboard displayed
2	Navigate to Organizations	All organizations visible
3	Filter by status "UNDER_REVIEW"	Pending reviews shown
4	Select organization "Global Finance Solutions PLC"	Organization details displayed
5	Click "Reject" button (red X icon)	Rejection dialog opens
6	Verify document list	All 3 KYC documents listed with checkboxes
7	Select "Certificate of Incorporation" checkbox	Checkbox checked
8	Enter feedback: "Document is blurry and unreadable..."	Text entered in feedback field
9	Select "Proof of Address" checkbox	Checkbox checked
10	Enter feedback: "Document is more than 3 months old..."	Text entered in feedback field
11	Leave "Directors Register" unchecked	Third document will be auto-approved
12	Click "Submit Rejection"	Rejection processed
13	Verify success message	"Organization rejected successfully" shown
14	Verify organization status	Status = REQUIRES_RESUBMISSION
15	Verify organization reasonDescription	"2 of 3 documents rejected"
16	Verify rejected documents	Certificate & Proof of Address = REJECTED
17	Verify non-rejected document	Directors Register = VERIFIED
18	Verify rejection feedback stored	Each rejected doc has admin's feedback

Precondition: Organization "Global Finance Solutions PLC" submitted for review

Test Case 6: View Rejection Feedback (Business User)

Test ID: TC-FEEDBACK-001

Priority: High

Type: Functional

Step	Action	Expected Result
1	Login as Business User (owner of GFS PLC)	Dashboard displayed
2	Navigate to Organizations page	Organizations list displayed
3	Verify rejection alert banner	Warning alert shown at top of page
4	Read alert message	"Global Finance Solutions PLC: 2 of 3 documents rejected. Please check KYC documents for details."
5	Click organization name	Organization details opened
6	Navigate to "KYC Documents" tab	KYC documents page displayed

8	Read rejection details	"Certificate of Incorporation: Document is blurry..."
9	Verify "Admin Feedback" column	Column present in documents table
10	Check feedback for Certificate	Red text: "Document is blurry and unreadable..."
11	Check feedback for Proof of Address	Red text: "Document is more than 3 months old..."
12	Check feedback for Directors Register	Empty (document was verified)
13	Hover over long feedback text	Tooltip shows full message
14	Verify resubmission instructions	Alert includes "Upload new documents and resubmit"

Precondition: Organization rejected by admin with document-level feedback

Test Case 7: Resubmit Corrected Documents

Test ID: TC-RESUBMIT-001

Priority: High

Type: Functional

Step	Action	Expected Result
1	Continue from TC-FEEDBACK-001	On KYC Documents page
2	Verify rejected documents status	Status = REJECTED (red)
3	Verify verified document status	Status = VERIFIED (green)
4	Click "Delete" on rejected Certificate	Confirmation dialog appears
5	Confirm deletion	Document removed from list
6	Select document type "Certificate of Incorporation"	Dropdown populated
7	Upload new clear certificate PDF	File uploaded successfully
8	Verify new document status	Status = PENDING
9	Repeat steps 4-8 for Proof of Address	New document uploaded
10	Navigate back to Organizations page	Organizations list displayed
11	Verify organization status	Still REQUIRES_RESUBMISSION
12	Click "Submit for Review" button	Button visible (resubmission allowed)
13	Confirm submission	Organization status → UNDER_REVIEW
14	Verify all documents status	All documents → UNDER_REVIEW
15	Verify rejection feedback cleared	reasonDescription cleared

Precondition: Organization rejected with 2 rejected documents

Test Case 8: File Type Validation

Test ID: TC-VALIDATE-001

Priority: Medium

Type: Negative Testing

Step	Action	Expected Result
1	Open KYC Documents upload tab	Upload interface displayed
2	Select document type	Dropdown populated
3	Try to upload invalid_document.txt	Error: "Invalid file type. Only PDF, JPG, PNG allowed"
4	Verify file not selected	No file preview shown
5	Try to upload .docx file	Error: "Invalid file type..."
6	Try to upload .xlsx file	Error: "Invalid file type..."
7	Upload valid .pdf file	File accepted and uploaded
8	Upload valid .jpg file	File accepted and uploaded
9	Upload valid .png file	File accepted and uploaded

Test Data: invalid_document.txt, valid PDFs/JPGs/PNGs

Test Case 9: File Size Validation

Test ID: TC-VALIDATE-002

Priority: Medium

Type: Negative Testing

Step	Action	Expected Result
1	Open KYC Documents upload tab	Upload interface displayed
2	Select document type	Dropdown populated
3	Try to upload 15MB PDF file	Error: "File size exceeds maximum (10MB)"
4	Verify file not selected	No file preview shown
5	Upload 9.5MB PDF file	File accepted (just under limit)
6	Verify file preview	File name and size displayed
7	Click "Upload"	File uploads successfully

Test Data: oversized_document.pdf (15MB), large_but_valid.pdf (9.5MB)

Test Case 10: One Organization Per User Restriction

Test ID: TC-ORG-002

Priority: High

Type: Business Rule Validation

Step	Action	Expected Result
1	Login as Business User	Dashboard displayed

2	Navigate to Organizations	Organizations page displayed
3	Verify existing organization	User already has "Tech Innovations Ltd"
4	Click "Create Organization" button	Button disabled or error message
5	Verify error message	"You already have an organization. Only one organization per user is allowed."
6	Try API call to create 2nd org	Backend returns 400 Bad Request error
7	Verify error response	"User already has an active organization"

Precondition: Business User already owns one organization

Test Case 11: Role-Based Access Control

Test ID: TC-RBAC-001
Priority: High
Type: Security

Step	Action	Expected Result
1	Login as Business User	Dashboard displayed
2	Navigate to Organizations	Only own organization visible
3	Verify Approve/Reject buttons	Buttons NOT visible (non-admin)
4	Verify "Submit for Review" button	Button visible (owner capability)
5	Logout and login as Admin	Admin dashboard displayed
6	Navigate to Organizations	All organizations visible
7	Filter by UNDER_REVIEW	All pending organizations shown
8	Verify Approve/Reject buttons	Buttons visible (admin capability)
9	Verify "Submit for Review" button	Button NOT visible (admin doesn't submit)

Test Data: Both Business User and Admin accounts

Test Case 12: Document Download

Test ID: TC-DOC-001
Priority: Medium
Type: Functional

Step	Action	Expected Result
1	Login as Admin	Dashboard displayed
2	Navigate to organization KYC documents	Documents table displayed
3	Click "Download" button on first document	File download initiated
4	Verify file downloaded	PDF file saved to Downloads folder
5	Open downloaded file	File opens correctly in PDF reader
6	Verify file content	Content matches original upload
7	Repeat for other documents	All documents downloadable

Precondition: Organization with uploaded KYC documents

Test Case 13: Pagination and Sorting

Test ID: TC-UI-001
Priority: Low
Type: Functional

Step	Action	Expected Result
1	Login as Admin	Dashboard displayed
2	Navigate to Organizations	Organizations list with pagination
3	Verify page size options	10, 20, 50 rows per page available
4	Select 10 rows per page	Shows 10 organizations
5	Click "Next Page"	Page 2 displayed
6	Click "Previous Page"	Back to page 1
7	Sort by "Legal Name" ascending	Organizations sorted A-Z
8	Sort by "Legal Name" descending	Organizations sorted Z-A
9	Sort by "Created Date"	Sorted by creation date
10	Sort by "Status"	Grouped by status

Precondition: Database with 25+ organizations

Module 1: User Management & Authentication

Test Cases

TC-AUTH-001: Successful Login

Priority: Critical
Type: Functional

Step	Action	Test Data	Expected Result
1	Open application URL	NPE frontend URL	Login page displayed
2	Enter phone number	+44-7700-900002	Number accepted

3	Click "Send OTP"	-	"OTP sent" message shown
4	Enter OTP	123456	OTP field populated
5	Click "Login"	-	Redirected to dashboard
6	Verify user name	-	"Business Owner One" displayed in header
7	Verify navigation menu	-	User menu items visible

TC-AUTH-002: Invalid OTP

Priority: High
Type: Negative Testing

Step	Action	Test Data	Expected Result
1	Open login page	-	Login page displayed
2	Enter phone number	+44-7700-900002	Number accepted
3	Click "Send OTP"	-	"OTP sent" message shown
4	Enter incorrect OTP	999999	OTP field populated
5	Click "Login"	-	Error: "Invalid OTP code"
6	Verify still on login page	-	Not logged in

TC-AUTH-003: JWT Token Expiration

Priority: Medium
Type: Security

Step	Action	Test Data	Expected Result
1	Login successfully	Valid credentials	Dashboard displayed
2	Note current time	-	Record timestamp
3	Leave browser open for 24+ hours	-	Token expires
4	Try to navigate or perform action	-	Redirected to login page
5	See timeout message	-	"Session expired, please login again"

TC-USER-001: Create New User

Priority: High
Type: Functional

Step	Action	Test Data	Expected Result
1	Login as Admin	Admin credentials	Dashboard displayed
2	Navigate to Users	Click Users menu	Users page displayed
3	Click "Create User"	-	User creation form opens
4	Enter first name	"Alice"	Field populated
5	Enter last name	"Johnson"	Field populated
6	Enter email	"alice.johnson@test.com"	Field populated
7	Enter phone	"+44-7700-900010"	Field formatted correctly
8	Select role	BUSINESS_USER	Dropdown selected
9	Select status	ACTIVE	Dropdown selected
10	Add residential address	"10 Test St, London, SW1A 1AA"	Address fields filled
11	Click "Save"	-	Success message shown
12	Verify user in list	-	"Alice Johnson" appears in users table

TC-USER-002: Update User Details

Priority: Medium
Type: Functional

Step	Action	Test Data	Expected Result
1	Navigate to Users page	-	Users list displayed
2	Search for user	"Alice Johnson"	User found
3	Click "Edit" button	-	Edit form opens with current data
4	Update phone number	"+44-7700-900011"	New number entered
5	Update role	COMPLIANCE_OFFICER	Role changed
6	Click "Save"	-	Success message shown
7	Verify changes	-	Phone and role updated in table

Module 2: Organization Management

Test Cases

TC-ORG-003: Create LIMITED_COMPANY Organization

Priority: Critical
Type: Functional

Precondition: Login as Business User with no existing organization

Step	Action	Test Data	Expected Result
1	Navigate to Organizations	Click menu	

			Organizations page displayed
2	Click "Create Organization"	-	7-step wizard opens
3	TAB 1: Basic Information		
4	Enter Legal Name	"Tech Innovations Limited"	Field populated
5	Enter Trading Name	"TechInn"	Field populated
6	Select Organization Type	LIMITED_COMPANY	Dropdown selected
7	Enter Description	"Software development company"	Field populated
8	Click "Next" or Tab 2	-	Tab 2 opens
9	TAB 2: Registration Details		
10	Enter Registration Number	"12345678"	Field populated
11	Select Incorporation Date	2020-01-15	Date picked
12	Enter VAT Number	"GB123456789"	Field populated
13	Click "Next" or Tab 3	-	Tab 3 opens
14	TAB 3: Business Address		
15	Enter Address Line 1	"123 Tech Street"	Field populated
16	Enter City	"London"	Field populated
17	Enter Postcode	"SW1A 1AA"	Field populated
18	Select Country	"United Kingdom"	Dropdown selected
19	Check "Same as Registered Address"	-	Business address auto-filled
20	Click "Next" or Tab 4	-	Tab 4 opens
21	TAB 4: Contact Information		
22	Enter Email	"contact@techinnovations.co.uk"	Field populated
23	Enter Phone	"+44-7700-900100"	Field populated
24	Enter Website	"www.techinnovations.co.uk"	Field populated
25	Enter Primary Contact Name	"John Smith"	Field populated
26	Enter Primary Contact Position	"Managing Director"	Field populated
27	Click "Next" or Tab 5	-	Tab 5 opens
28	TAB 5: Business Details		
29	Select Industry	TECHNOLOGY	Dropdown selected
30	Select Company Size	SMALL	Dropdown selected
31	Enter Annual Revenue	"£500,000"	Field populated
32	Enter Number of Employees	25	Field populated
33	Click "Next" or Tab 6	-	Tab 6 opens
34	TAB 6: Financial Information		
35	Enter Bank Name	"Barclays Bank PLC"	Field populated
36	Enter Bank Account Number	"12345678"	Field populated
37	Enter Sort Code	"20-00-00"	Field populated
38	Select Accounting Reference Date	31-March	Date selected
39	Click "Next" or Tab 7	-	Tab 7 opens (KYC Documents)
40	TAB 7: KYC Documents		
41	Verify upload component displayed	-	Drag & drop area visible
42	Click "Save" at bottom	-	Organization saved as PENDING
43	Verify success message	-	"Organization created successfully"
44	Verify in organizations list	-	"Tech Innovations Limited" appears
45	Verify status	-	Status = PENDING

TC-ORG-004: Required Field Validation

Priority: High

Type: Validation

Step	Action	Test Data	Expected Result
1	Start creating organization	-	Wizard opens
2	Leave Legal Name empty	-	Red error shown
3	Try to click Next	-	Button disabled or validation error
4	Enter Legal Name	"Test Company"	Error cleared
5	Leave Organization Type empty	-	Validation error shown
6	Try to navigate to Tab 2	-	Tab navigation blocked
7	Select Organization Type	LIMITED_COMPANY	Error cleared, can proceed
8	Navigate to Tab 3 (Address)	-	Tab 3 opens
9	Leave Address Line 1 empty	-	Validation error shown
10	Try to save	-	Cannot save with required fields empty
11	Fill all required fields	Valid data	Save button enabled
12	Click Save	-	Organization created successfully

TC-ORG-005: Search Organizations

Priority: Medium

Type: Functional

Step	Action	Test Data	Expected Result
1	Login as Admin	Admin credentials	Dashboard displayed
2	Navigate to Organizations	-	All organizations visible
3	Enter search term in search box	"Tech"	Search field populated
4	Press Enter or click Search	-	Filtered results shown

5	Verify results	-	Only orgs with "Tech" in name shown
6	Clear search	-	All organizations displayed again
7	Filter by Organization Type	LIMITED_COMPANY	Only LTD companies shown
8	Filter by Status	ACTIVE	Only active orgs shown
9	Combine filters	Type=LTD, Status=ACTIVE	Both filters applied
10	Clear all filters	-	All organizations displayed

Module 3: KYC Document Upload & Verification

Test Cases

TC-KYC-002: Drag and Drop Upload

Priority: High

Type: Functional

Step	Action	Test Data	Expected Result
1	Open organization KYC Documents tab -		Upload interface displayed
2	Select document type	CERTIFICATE_OF_INCORPORATION	Dropdown populated
3	Drag file to drop zone	certificate_incorporation.pdf	File highlighted in drop zone
4	Drop file	-	File preview shown with name & size
5	Verify file details	-	File name and size displayed
6	Click "Upload" button	-	Progress bar appears
7	Wait for upload to complete	-	Success message: "Document uploaded"
8	Verify document in table	-	Document listed with status PENDING
9	Verify document type	-	Type = CERTIFICATE_OF_INCORPORATION
10	Verify uploaded date	-	Today's date shown

TC-KYC-003: Click to Upload

Priority: Medium

Type: Functional

Step	Action	Test Data	Expected Result
1	Open KYC Documents tab	-	Upload interface displayed
2	Select document type	PROOF_OF_ADDRESS	Dropdown selected
3	Click "Browse Files" or drop zone -		File picker dialog opens
4	Select file from computer	proof_address_utility.pdf	File selected
5	Click "Open" in dialog	-	File preview shown
6	Click "Upload" button	-	Upload starts
7	Verify upload completes	-	Document appears in table

TC-KYC-004: Multiple Documents Upload

Priority: High

Type: Functional

Step	Action	Test Data	Expected Result
1	Upload Certificate of Incorporation	certificate_incorporation.pdf	Uploaded successfully
2	Upload Proof of Address	proof_address_utility.pdf	Uploaded successfully
3	Upload Directors Register	directors_register.pdf	Uploaded successfully
4	Verify all 3 documents in table	-	3 rows in documents table
5	Verify all statuses	-	All = PENDING
6	Verify required docs checklist	-	All 3 required docs checked ✓

TC-KYC-005: View/Download Document

Priority: Medium

Type: Functional

Step	Action	Test Data	Expected Result
1	Navigate to KYC Documents	-	Documents table displayed
2	Locate uploaded document	Certificate of Incorporation	Document row visible
3	Click "View" or "Download" button -		Action initiated
4	Verify download starts	-	File downloads to browser
5	Open downloaded file	-	PDF opens correctly
6	Verify file content	-	Content matches original upload

TC-KYC-006: Delete Document

Priority: Low

Type: Functional

Step	Action	Test Data	Expected Result
1	Navigate to KYC Documents -		Documents table displayed
2	Locate document to delete	Proof of Address	Document row visible

3	Click "Delete" button	-	Confirmation dialog appears
4	Click "Cancel"	-	Dialog closes, document still present
5	Click "Delete" again	-	Confirmation dialog appears
6	Click "Confirm"	-	Document deleted
7	Verify document removed	-	No longer in table
8	Verify required docs checklist	-	Proof of Address unchecked

Module 4: Admin Approval Workflow

Test Cases

TC-APPROVE-002: Full Organization Approval

Priority: Critical

Type: End-to-End

Precondition: Organization "Tech Innovations Ltd" with status UNDER_REVIEW and 3 documents

Step	Action	Test Data	Expected Result
1	Login as Admin	+44-7700-900001	Admin dashboard
2	Navigate to Organizations	-	All organizations displayed
3	Apply filter	Status = UNDER_REVIEW	Filtered list shown
4	Locate organization	"Tech Innovations Ltd"	Organization found
5	Verify status badge	-	Orange "UNDER_REVIEW" badge
6	Verify Approve button visible	-	Green checkmark button shown
7	Click organization row/name	-	Organization details open (or stay on list)
8	Click "Approve" button	-	Confirmation dialog appears
9	Read confirmation message	-	"Are you sure you want to approve...?"
10	Click "Cancel"	-	Dialog closes, no change
11	Click "Approve" button again	-	Dialog appears
12	Click "Confirm"	-	Success message shown
13	Verify organization status	-	Status = ACTIVE
14	Navigate to organization details	-	Details page opens
15	Go to KYC Documents tab	-	Documents table displayed
16	Verify all document statuses	-	All documents = VERIFIED
17	Verify reasonDescription	-	Empty/null (no rejection text)
18	Logout admin	-	Logged out successfully
19	Login as Business User (owner)	+44-7700-900002	User dashboard
20	Navigate to Organizations	-	Organizations page
21	Verify organization status	-	Status = ACTIVE (green badge)
22	Verify no rejection alerts	-	No warning banners shown

TC-REJECT-002: Selective Document Rejection

Priority: Critical

Type: End-to-End

Precondition: Organization "Global Finance Solutions PLC" with status UNDER_REVIEW and 3 documents

Step	Action	Test Data	Expected Result
1	Login as Admin	+44-7700-900001	Admin dashboard
2	Navigate to Organizations	-	All organizations displayed
3	Filter by UNDER_REVIEW	-	Pending reviews shown
4	Locate organization	"Global Finance Solutions PLC"	Organization found
5	Click "Reject" button (red X)	-	Rejection dialog opens
6	Verify dialog title	-	"Reject Organization Documents"
7	Verify document list	-	3 documents with checkboxes listed
8	Verify all unchecked initially	-	No documents selected
9	Check "Certificate of Incorporation"	-	Checkbox checked
10	Verify feedback textbox appears	-	Text area enabled for this doc
11	Enter rejection reason	"The document is blurry and unreadable. Please upload a clearer version showing company name and registration number."	Text entered
12	Check "Proof of Address"	-	Second checkbox checked
13	Enter rejection reason	"This document is more than 3 months old. Please provide a recent utility bill or bank statement dated within the last 90 days."	Text entered
14	Leave "Directors Register" unchecked	-	Third document unselected
15	Verify submit button enabled	-	"Submit Rejection" button active
16	Click "Submit Rejection"	-	Processing indicator shown
17	Wait for confirmation	-	Success: "Organization rejected with feedback"
18	Verify dialog closes	-	Back to organizations list
19	Verify organization status	-	Status = REQUIRES_RESUBMISSION

20	Click organization to view details	-	Details page opens
21	Verify reasonDescription	-	"2 of 3 documents rejected"
22	Navigate to KYC Documents	-	Documents table displayed
23	Verify Certificate status	-	Status = REJECTED (red badge)
24	Verify Proof of Address status	-	Status = REJECTED (red badge)

12	Verify Document 2 status	-	Proof of Address = REJECTED (red badge)
13	Verify Document 3 status	-	Directors Register = VERIFIED (green badge)
14	Hover over feedback text	-	Full feedback shown in tooltip
15	Locate rejected Certificate	-	Row highlighted/marked
16	Click "Delete" on Certificate	-	Confirmation dialog
17	Confirm deletion	-	Document removed
18	Select document type	CERTIFICATE_OF_INCORPORATION	Dropdown selected
19	Upload new clear certificate	certificate_incorporation_clear.pdf	File uploaded
20	Verify new document status	-	Status = PENDING
21	Delete rejected Proof of Address	-	Document removed
22	Upload new recent proof	proof_address_recent.pdf	File uploaded
23	Verify new document status	-	Status = PENDING
24	Verify Directors Register	-	Still VERIFIED (not touched)
25	Navigate back to Organizations	-	Organizations list
26	Verify "Submit for Review" button	-	Button visible (resubmission allowed)
27	Click "Submit for Review"	-	Confirmation dialog
28	Confirm submission	-	Success message shown
29	Verify organization status	-	Status = UNDER_REVIEW
30	Verify all document statuses	-	All docs (incl. new ones) = UNDER_REVIEW
31	Verify reasonDescription cleared	-	No rejection text visible
32	Logout	-	Logged out

33	Login as Admin	+44-7700-900001	Admin dashboard
34	Navigate to Organizations	-	All organizations visible
35	Filter by UNDER_REVIEW	-	GFS PLC appears in list
36	Verify resubmitted organization	-	Available for re-review

Module 6: Questionnaire Management

Test Cases

TC-QUEST-001: Create Question - Financial Category

Priority: Medium

Type: Functional

Step	Action	Test Data	Expected Result
1	Login as Admin	+44-7700-900001	Admin dashboard
2	Navigate to Questionnaires -		Questionnaires page displayed
3	Click "Create Question"	-	Question creation form opens
4	Enter question text	"What is your company's annual revenue?"	Field populated
5	Select category	FINANCIAL	Dropdown selected
6	Select question type	TEXT	Dropdown selected
7	Set display order	1	Number entered
8	Set status	ACTIVE	Dropdown selected
9	Check "Required" checkbox -		Checkbox checked
10	Enter help text	"Please provide your latest annual revenue"	Field populated
11	Click "Save"	-	Success message shown
12	Verify question in list	-	Question appears in table
13	Verify category	-	Category = FINANCIAL
14	Verify status	-	Status = ACTIVE

TC-QUEST-002: Reorder Questions

Priority: Low

Type: Functional

Step	Action	Test Data	Expected Result
1	Navigate to Questionnaires -		Questions list displayed
2	Verify current order	-	Questions sorted by display order
3	Select a question	Question at order 3	Question selected
4	Click "Move Up" button	-	Question moves to order 2
5	Verify new order	-	Question now at position 2
6	Select another question	Question at order 1	Question selected
7	Click "Move Down" button	-	Question moves to order 2
8	Verify list reordered	-	Display order updated

TC-QUEST-003: Archive Question

Priority: Low

Type: Functional

Step	Action	Test Data	Expected Result
1	Navigate to Questionnaires	-	Questions list displayed
2	Locate active question	"What is your annual revenue?"	Question found
3	Click "Archive" button	-	Confirmation dialog
4	Confirm archiving	-	Success message
5	Verify question status	-	Status = ARCHIVED
6	Verify question still in list	-	Appears with "ARCHIVED" badge
7	Filter by ACTIVE	-	Archived question not shown
8	Clear filter or select ARCHIVED -		Question reappears

Module 7: Customer Answers

Test Cases

TC-ANSWER-001: Submit Answer to Question

Priority: Medium

Type: Functional

Step	Action	Test Data	Expected Result
1	Login as Business User	+44-7700-900002	Dashboard displayed
2	Navigate to Questionnaires/Answers -		Questionnaire page displayed
3	Verify active questions	-	List of ACTIVE questions shown
4	Locate first question	"What is your annual revenue?"	Question displayed

5	Enter answer	"£500,000"	Answer field populated
6	Click "Submit Answer" or "Next"	-	Answer saved
7	Verify success message	-	"Answer submitted successfully"
8	Verify answer appears	-	Answer shows in field (if editable)
9	Check completion rate	-	"1 of X questions answered"

TC-ANSWER-002: Update Existing Answer

Priority: Medium

Type: Functional

Step	Action	Test Data	Expected Result
1	Navigate to Questionnaires	-	Page displayed
2	Locate previously answered question "What is your annual revenue?"	-	Question found
3	Verify current answer	-	Answer = "£500,000"
4	Click "Edit" button	-	Answer field becomes editable
5	Change answer	"£650,000"	New value entered
6	Click "Update" or "Save"	-	Answer updated
7	Verify success message	-	"Answer updated successfully"
8	Verify new answer displayed	-	Shows "£650,000"

TC-ANSWER-003: Bulk Answer Submission

Priority: Low

Type: Functional

Step	Action	Test Data	Expected Result
1	Navigate to Questionnaires	-	All questions displayed
2	Answer question 1	"£650,000"	Field populated
3	Answer question 2	"10 employees"	Field populated
4	Answer question 3	"Yes, we are registered"	Field populated
5	Answer question 4	"Technology sector"	Field populated
6	Click "Submit All Answers"	-	All answers saved
7	Verify success message	-	"4 answers submitted successfully"
8	Verify completion rate	-	"4 of X questions answered" or "100%"

13. Bug Reporting & AI Feedback Process

13.1 How to Report Bugs

When you find a bug or issue during testing, record it using the following format in the **Excel Test Tracker**:

Bug Report Template

Field	Description	Example
Bug ID	Unique identifier	BUG-001
Test Case ID	Related test case	TC-ORG-001
Module	Feature area	Organization Management
Severity	Critical / High / Medium / Low	High
Priority	Critical / High / Medium / Low	High
Summary	One-line description	Unable to save organization without legal name
Steps to Reproduce	Numbered steps	1. Click Create Org 2. Leave Legal Name empty 3. Click Save
Expected Result	What should happen	Validation error shown, cannot save
Actual Result	What actually happened	Organization saved with empty legal name
Screenshots	File name of screenshot	bug-001-empty-name.png
Browser	Browser + version	Chrome 120.0
Test Date	When found	2026-05-18
Tested By	Your name	QA Tester
Status	New / In Review / Fixed / Verified	New

13.2 Bug Severity Definitions

Critical ●

- **Impact:** System crash, data loss, security breach
- **Examples:**
 - Application won't load
 - Cannot login at all
 - Data corruption or loss
 - Unauthorized access to admin features
- **Action:** Report immediately, stop related testing

High ●

- **Impact:** Major feature broken, no workaround
- **Examples:**
 - Cannot upload documents at all
 - Cannot submit organization for review
 - Approval button not working
- **Action:** Report same day, continue with other tests

Medium ●

- **Impact:** Feature partially broken, workaround exists
- **Examples:**
 - Drag & drop doesn't work but click upload does
 - Search works but filter doesn't
 - UI display issues that don't prevent functionality
- **Action:** Complete testing, report in daily summary

Low ●

- **Impact:** Minor cosmetic or usability issue
- **Examples:**
 - Spelling error in message
 - Button alignment slightly off
 - Missing tooltip
- **Action:** Report in final test summary

13.3 AI Feedback Loop Process

Step 1: Complete Testing Cycle

- Execute all test cases in a module
- Record results in Excel tracker
- Mark each test as PASS or FAIL
- For failures, complete bug report section

Step 2: Export Failures

After completing a module (e.g., Organization Management), export failed tests:

1. Filter Excel to show only FAIL status
2. Copy the following columns:
 - Test Case ID
 - Test Name
 - Steps to Reproduce
 - Expected Result
 - Actual Result
 - Screenshots (describe what's shown)

Step 3: Format for AI

Create a message for the AI using this template:

I completed testing of [Module Name] in the FinCore platform NPE environment.

SUMMARY:

- Total Tests: [number]
- Passed: [number]
- Failed: [number]
- Pass Rate: [percentage]%

FAILED TESTS:

Test ID: TC-ORG-001

Test Name: Create LIMITED_COMPANY Organization

Steps:

1. Navigate to Organizations
2. Click Create Organization
3. Fill Tab 1: Legal Name = "Tech Innovations Limited"
4. [continue with all steps]

Expected: Organization saved with status PENDING

Actual: Error message "Internal Server Error 500" shown. Organization not created.

Error Details: [paste any error messages from console or UI]

Screenshot: [describe what screenshot shows]

[Repeat for each failed test]

ENVIRONMENT:

- Backend API: <https://fincore-npe-api-994490239798.europe-west2.run.app>
- Frontend URL: [frontend URL]
- Test Date: 2026-05-18
- Browser: Chrome 120.0

Please analyze these failures and fix the issues.

Step 4: Send to AI

- Open your AI chat interface (where AI has access to the codebase)
- Paste the formatted feedback
- Wait for AI to analyze and fix issues

Step 5: Verify Fixes

After AI reports fixes have been deployed:

1. Clear browser cache
2. Refresh the application
3. Re-run the failed tests
4. Update Excel tracker:
 - If fixed: Change status to PASS
 - If still failing: Update "Actual Result" with new behavior
 - If partially fixed: Note what's fixed and what remains

Step 6: Regression Testing

After all fixes deployed:

1. Re-run ALL test cases (even those that passed initially)
2. Verify fixes didn't break other features
3. Update final test results

13.4 Daily Testing Checklist

Morning

- ☐ Verify NPE environment is UP (check health endpoint)
- ☐ Clear browser cache
- ☐ Login with test accounts to verify access
- ☐ Review yesterday's bug fixes (if any)

During Testing

- ☐ Follow test cases step by step
- ☐ Take screenshots of failures
- ☐ Copy error messages to notepad
- ☐ Update Excel tracker in real-time
- ☐ Note any new issues discovered

End of Day

- ☐ Complete Excel tracker for the day
- ☐ Save screenshots to organized folder

- ☐ If >= 3 failures, prepare AI feedback
- ☐ Send feedback to AI
- ☐ Update project manager on progress

14. Test Completion Checklist

Module Completion Status

Module	Test Cases	Executed	Passed	Failed	Status
User Management & Authentication	5	0	0	0	☐ Not Started
Organization Management	8	0	0	0	☐ Not Started
KYC Document Upload	6	0	0	0	☐ Not Started
Admin Approval Workflow	5	0	0	0	☐ Not Started
Rejection & Resubmission	4	0	0	0	☐ Not Started
Questionnaire Management	3	0	0	0	☐ Not Started
Customer Answers	3	0	0	0	☐ Not Started
TOTAL	34	0	0	0	0%

Final Sign-Off

QA Tester

- Name: _____
- Date: _____
- Signature: _____

Test Summary

- Total Test Cases: 34
- Total Tests Passed: _____
- Total Tests Failed: _____
- Pass Rate: _____%
- Critical Issues Found: _____
- High Issues Found: _____
- Medium Issues Found: _____
- Low Issues Found: _____

Recommendation

- ☐ **PASS:** Application ready for production
- ☐ **CONDITIONAL PASS:** Application acceptable with minor issues
- ☐ **FAIL:** Critical issues found, requires fixes and re-testing

Comments: _____

Appendix A: Test Environment Details

NPE Environment

- **Backend API Health:** <https://fincore-npe-api-994490239798.europe-west2.run.app/actuator/health>
- **Backend API Base:** <https://fincore-npe-api-994490239798.europe-west2.run.app/api>
- **Frontend URL:** [To be updated with actual frontend URL]
- **Database:** Cloud SQL MySQL 8.0 (managed)
- **File Storage:** Google Cloud Storage (GCS)
- **Region:** europe-west2 (London)

Test Data Cleanup

After testing, the following data can be cleaned:

- Test organizations created during testing
- Uploaded KYC documents
- Test user accounts (if created)

Note: Coordinate with development team before deleting any data.

Appendix B: Common Issues & Troubleshooting

Issue: Cannot Login

- **Check:** Environment is UP (health endpoint)
- **Check:** Phone number format correct (+44-...)
- **Check:** OTP is 123456 (development mode)
- **Solution:** Clear browser cache, try again

Issue: File Upload Fails

- **Check:** File size < 10MB
- **Check:** File format is PDF/JPG/PNG

- **Check:** Internet connection stable
- **Solution:** Try smaller file or different format

Issue: Buttons Not Visible

- **Check:** Logged in with correct role (Admin vs Business User)
- **Check:** Organization status is correct for the action
- **Solution:** Logout and login with appropriate role

Issue: Data Not Saved

- **Check:** Required fields filled
- **Check:** No validation errors shown
- **Check:** Network tab in browser DevTools for errors
- **Solution:** Check console for error messages, report to AI

Appendix C: Browser DevTools Usage

Opening DevTools

- **Windows:** Press F12 or Ctrl+Shift+I
- **Mac:** Press Cmd+Option+I

Useful Tabs

Console Tab

- Shows JavaScript errors and logs
- Copy error messages for bug reports

Network Tab

- Shows API calls
- Check for failed requests (red entries)
- Click on failed request to see error details

Application Tab

- View stored data (JWT token, user info)
- Clear cache and storage

How to Copy Error Messages

1. Open Console tab
2. Look for red error messages
3. Right-click error
4. Select "Copy message"
5. Paste into bug report

End of Test Plan

Version: 3.0.0

Last Updated: May 18, 2026

Expected Results

Status Transitions

Action	Before Status	After Status	Document Status
Create Organization	-	PENDING	-
Upload Document	PENDING	PENDING	PENDING
Submit for Review	PENDING	UNDER_REVIEW	UNDER_REVIEW
Admin Approve	UNDER_REVIEW	ACTIVE	VERIFIED
Admin Reject (all)	UNDER_REVIEW	REQUIRES_RESUBMISSION	REJECTED
Admin Reject (partial)	UNDER_REVIEW	REQUIRES_RESUBMISSION	REJECTED (selected), VERIFIED (others)
Resubmit	REQUIRES_RESUBMISSION	UNDER_REVIEW	UNDER_REVIEW

Button Visibility Matrix

Button	Business User (Owner)	Business User (Non-Owner)	Admin
Create Organization	✓ (if no org)	✓ (if no org)	✓
Submit for Review	✓ (PENDING/REQUIRES_RESUBMISSION)	x	x
Approve	x	x	✓ (UNDER_REVIEW)
Reject	x	x	✓ (UNDER_REVIEW)
Edit Organization	✓	x	✓
Delete Document	✓ (PENDING/REJECTED docs)	x	✓

Feedback Visibility

User Type	Organizations Page Alert	KYC Documents Page Alert	Admin Feedback Column
Organization Owner	✓ (if REQUIRES_RESUBMISSION)	✓ (lists rejected docs)	✓ (shows feedback)

Other Business User	X	X	X
Admin	X (admins don't see owner alerts)	✓ (can see feedback)	✓ (can see feedback)

Bug Reporting

Bug Report Template

```
**Bug ID**: BUG-XXX
**Title**: [Brief description]
**Severity**: Critical / High / Medium / Low
**Test Case**: TC-XXX-XXX
**Environment**: NPE / UAT / Local

**Steps to Reproduce**:
1. [Step 1]
2. [Step 2]
3. [Step 3]

**Expected Result**:
[What should happen]

**Actual Result**:
[What actually happened]

**Screenshots**:
[Attach screenshots]

**Browser**: Chrome 120 / Edge 120
**User Role**: Admin / Business User
**Organization ID**: 123
**Document IDs**: 456, 789
```

Common Issues to Watch For

1. **Status not updating** after approval/rejection
2. **Documents not showing** after upload
3. **Rejection feedback not visible** to organization owner
4. **Submit button still visible** after submission
5. **File upload fails** without error message
6. **Pagination breaks** with large datasets
7. **Role-based buttons visible** to wrong user types
8. **One org per user rule** not enforced
9. **Document deletion fails** for verified documents
10. **Resubmission clears** verified documents incorrectly

DELETE	/api/kyc-documents/{id}	# Delete document
GET	/api/kyc-documents/{id}/download	# Download document
GET	/api/kyc-documents/organization/{id}	# Get docs by organization

Database Queries for Validation

```
-- Check organization status
SELECT id, legal_name, organisation_status, reason_description
FROM organisation
WHERE id = ?;

-- Check document statuses
SELECT id, document_type, document_status, reason_description
FROM kyc_document
WHERE organisation_id = ?;

-- Count organizations per user
SELECT owner_id, COUNT(*) as org_count
FROM organisation
GROUP BY owner_id;

-- Get rejection summary
SELECT o.legal_name,
       COUNT(kd.id) as total_docs,
       SUM(CASE WHEN kd.document_status = 'REJECTED' THEN 1 ELSE 0 END) as rejected_docs
FROM organisation o
LEFT JOIN kyc_document kd ON o.id = kd.organisation_id
WHERE o.organisation_status = 'REQUIRES_RESUBMISSION'
GROUP BY o.id;
```
